

SEASONAL FLU VACCINE UPDATES-JANUARY 22, 2010

Swine flu-Influenza A (H1N1) vaccine:

Currently, we have injectable H1N1 vaccine for children six (6) months and older. It is recommended that all children under 10 years of age receive a booster dose of H1N1. If you would like your child to receive the vaccine or a booster dose, please call your pediatrician's office for appointment availability and scheduling.

Regular/seasonal flu vaccine:

We also have injectable seasonal flu vaccine for children six (6) months and older currently available. If you are interested in having your child receive a seasonal flu vaccine, please call your pediatrician's office for appointment availability and scheduling.
